January 6, 2007

Dear Ms. Zelechoski:

I would like to thank the Golden Retriever Foundation for your generous support of my Morris Animal Foundation Grant entitled "Transcriptional Profiling of Canine Mast Cell Tumors." We have already begun our work and are very excited about the prospect of identifying genes expressed in malignant mast cell tumors to help develop more effective therapeutics, as well as to develop a better understanding regarding the biology of this disease. Our proposal represents a cooperative effort with the National Cancer Institute Comparative Oncology Program and we are hopeful that meaningful data can be generated in a relatively short period of time. Once again, thank you so much for your support.

Sincerely,

A handwritten signature in black ink, appearing to read "Cheryl A. London". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Cheryl A. London, DVM, PhD
